Violencia y Monoteísmo (Fragmentos) Egyptologist Jan Assmann

In this work, Jan Assmann asks to what degree monotheism has been the main instigator of countless situations of violence and persecution of -other religions- who have ravaged coexistence of European populations. The alleged return of religion has not led to more peace, but has actually meant a terrible increase in violence and conflict on Earth. Opposing groups use religion when it comes to forging images of enemies and mobilizing the masses.
